

We Ignite Brands That Help People Live Healthier, Happy Lives.

Smarter Strategies. Stronger Results. Powered by AI.

Whitehead Agency Group is a full-service boutique digital marketing agency based in Toronto. We deliver the capabilities of a large agency with the agility, flexibility, and personalized service of a hands-on partner. Serving clients across North America and the Caribbean, we help brands turn insight into impact.

With more than 30 years of experience across healthcare, travel, financial services, and other sectors, our team combines strategic thinking, creative expertise, real-time data, and advanced AI tools to solve complex marketing challenges and accelerate growth.

AI helps us identify patterns, uncover opportunities, personalize experiences, optimize campaigns, and make smarter decisions faster. Human expertise brings the judgment, empathy, imagination, and brand understanding that technology alone cannot replicate.

The result: more meaningful consumer engagement, stronger brand experiences online and offline, and marketing programs optimized for measurable ROI.

We do not work with clients in alcohol, gaming, or recreational cannabis.

Start with a 30-minute discovery call. You'll leave with greater clarity and actionable ideas—whether or not we work together.
